- Aims
- Process
- Challenges and learning points
- Benefits

Project partners

Five European partners

- 1. European Schoolnet (Belgium)
- 2. Kristau Eskola (Basque Region, Spain)
- 3. GO! Het Gemeenschapsonderwijs (Belgium)
- 4. Vestland County (Norway)
- 5. Central Denmark Region (Denmark)
- 14 partner schools from four countries

Aims

Objectives

- 1. To develop new teaching guidelines for digital language learning
- 2. To develop easily accessible methods for virtual language exchange
- 3. To establish a sustainable organizational model anchored at the regional level

End goal

• To contribute to the European goal on multilingualism by getting more students to engage in foreign language

Through a theoretical framework, guidelines, teacher seminars and an organisational model.

Process

- Monthly virtual partner meetings
- Annual partner meetings

Challenges and learning points

- Shift in project leader and employee replacement at partner organisation
- AI
- Even more focus on communication to make sure that expectations and responsibilities are crystal clear to all
- · Clearer identification and alignment of perceptions of project results

Benefits

- Reflection on cultural differences in the participating organisations
- Opportunity to tap into wider range of skills, knowledge of innovative practices ad digital tools, and diverse perspectives
- Better understanding of the teachers role in the school system and in the classroom in different cultures
- The transnational nature of the project has opened up opportunities for further collaboration on future initiatives

Thank you!
